

QUESTIONS & ANSWERS: TAKATA AIRBAG INFLATOR RECALL (April 15, 2019)

1. What is the Takata Mandatory Safety Recall?

The Takata Mandatory Safety Recall is a mandatory recall notice issued by the Federal Government in February 2018 under section 122 of the Australian Consumer Law. Amongst other things, the Takata Mandatory Safety Recall requires all Australian based suppliers of motor vehicles (such as Subaru Australia) containing certain Takata airbag inflators to replace those airbag inflators in affected vehicles by no later than **December 2020**.

Subaru Australia treats the continued safety of its owners, drivers and passengers as its number 1 priority and supports measures to increase awareness of the risks associated with affected Takata airbag inflators and to rectify affected vehicles as soon as possible. In line with this commitment Subaru Australia is doing everything it can to rectify all affected Subaru vehicles as soon as possible, and to otherwise comply with its obligations under the Takata Mandatory Safety Recall Notice.

You can find out more about the Takata Mandatory Safety Recall here:

<https://www.productsafety.gov.au/recalls/compulsory-takata-airbag-recall/about-the-compulsory-takata-airbag-recall>

2. Why is this recall necessary?

For those Subaru vehicles included in the Takata Airbag Recall, they contain a passenger-side front Takata airbag inflator that is subject to a **MANDATORY SAFETY RECALL** issued by the Australian Government following an investigation in which the ACCC concluded that certain Takata airbag inflators are faulty and could **kill or seriously injure** you and other people in your vehicle.

As it gets older, a combination of high temperatures and humidity can affect airbags with the fault. If you are involved in a collision, the airbag can go off with too much explosive force causing sharp metal fragments to shoot out and **kill or seriously injure people in the vehicle**.

3. Which Subaru vehicles are affected by this recall?

Subaru vehicles falling within the below Model and Model Year categories may be subject to the Takata Airbag Recall:

Model	Model Year
Impreza (including WRX & WRX STI)	MY04 to MY14
Liberty and Outback	MY04 to MY09
Tribeca	MY07 to MY13
Liberty and Outback	MY10 to MY14
Exiga	MY10 to MY15
Forester	MY09 to MY12

To check if your specific Subaru vehicle is affected and/or the current Takata recall status of your specific Subaru vehicle please visit www.subaru.com.au/takata-recall and enter the registration or Vehicle Identification Number (VIN). You will only need to book your Subaru in for rectification if the recall status of your vehicle is “**active**” or “**critical**”.

Alternatively, please visit www.ismyairbagsafe.com.au and enter your registration and state or territory.

If your vehicle status is:

- “**complete**” this means the rectification work has already been carried out; or
- “**not affected**” this means your vehicle does not have an affected Takata airbag inflator installed;

and there is therefore nothing further for you to do regarding this recall.

4. Which specific airbag inflators in Subaru vehicles are affected by this recall?

This recall pertains to the **passenger-side front airbag inflators** manufactured by Takata in affected Subaru vehicles only. See section 3 above for Subaru vehicles subject to this recall.

5. What is Subaru doing to address this issue?

Owners of vehicles subject to the Mandatory Safety Recall have been (or will be) contacted by Subaru Australia, advising them of this recall, including owners who previously had their vehicle rectified with a “like for like” replacement part.

All owners of vehicles whose Subaru vehicle Takata recall status is “**active**” or “**critical**” (see Section 3 above for details on how to check the Takata recall status of your Subaru vehicle) should **promptly** book their Subaru into their closest authorized Subaru Dealer **ASAP** to have the recall work conducted **free of charge**.

6. Are any new Subaru vehicles affected by the Recall?

No. Subaru Australia does **not** currently sell any **new** vehicles with the recalled Takata airbag inflators.

7. Can I drive my Subaru?

The driver’s side front airbag inflator is not affected by this recall, however, you should continue to take all precautions to ensure careful, safe driving to help minimise the potential for vehicle accidents that may result in the deployment of the front passenger side airbag.

8. Should I disconnect my airbags while I'm waiting for a repair?

No. Disconnecting the airbag is not recommended by road safety authorities. If you are involved in a car accident, it is far more likely that your Takata airbag will perform properly and protect you than it will misdeploy and cause harm.

In addition, if the airbags are disconnected then the vehicle may be considered unroadworthy and cannot be registered or insured.

9. How do I book my Subaru in for rectification?

To book your Subaru in for rectification simply contact your nearest authorized Subaru Dealer. A list of all authorized Subaru Dealers can be found at: www.subaru.com.au/retailers.

Alternatively, Customers can contact Subaru's Recall Customer Relations Team on **1300 550 994** (Monday to Friday 8.00am – 8.00pm AEST and Saturday 8.30am – 5.00pm AEST. Closed Public Holidays). For further information or visit our website subaru.com.au/takata-recall.

Have your Vehicle Identification Number (VIN) (which can be found on your registration papers) handy as this will speed up the booking process.

It is important to note that any person in possession of an affected Subaru vehicle can book the vehicle in for rectification, regardless of where and from whom the vehicle was purchased. All work will be conducted free of charge regardless of who actually presents the vehicle for rectification.

10. How long does the repair take?

All work is estimated to take approximately 2-3 hours, depending on the vehicle model and variant. All work will be conducted **free of charge**.

11. How many Subaru vehicles in Australia are involved in the Takata Mandatory Safety Recall?

As of 15 April 2019:

- a total of **282,971** Australian imported Subaru vehicles were subject to the Takata Mandatory Safety Recall; and
- Over 75% of these have already been rectified with a permanent fix inflator (i.e. are under "complete" status).

12. Why were some vehicles previously rectified using "like for like" airbag inflator replacements and when will they be recalled?

In the early stages of the Mandatory Safety Recall, Subaru Australia fitted Takata "like for like" inflators replacements to some Subaru vehicles as an interim rectification due to a limited supply of permanent fix (non Takata) replacement parts (NB "like for like" inflator means an inflator of exactly **the same specification as the inflator being replaced**).

Subaru Australia recognised that this may be inconvenient to some Subaru owners as the "like for like" inflators would also have to be replaced in the future. However, on the evidence so far provided by the US National Highway Traffic Safety Administration and Subaru Corporation, from a safety perspective it was better to install a new "like for like" Takata replacement inflator in an aged vehicle than to wait for a new alternative replacement unit to become available.

In simple terms, a new inflator (even if it is of the same specification as the replaced inflator) is unlikely to suffer from a defect in the short term, whereas the risk of the presence of a defect is higher with an aged inflator.

As of **15 April 2019**, all vehicles previously rectified using a “like for like” have been placed under “**active**” recall status meaning that owners of those vehicles can now book in their vehicle for rectification using a permanent final fix rectification replacement part (manufactured by ZF TRW, not Takata).

13. If customers have enquiries or concerns relating to this recall, what should they do?

Customers can view if their vehicle is affected by this recall and the recall status of their vehicle by typing in their vehicle’s VIN at subaru.com.au/takata-recall or contact the Recall Customer Relations Team by calling **1300 550 994** (Monday to Friday 8.00am – 8.00pm AEST and Saturday 8.30am – 5.00pm AEST (Closed Public Holidays) or by email at feedback@subaru.com.au.

You may also report any concerns you have regarding this recall to the ACCC at productsafety.gov.au/contact-us/for-consumers/make-an-enquiry.

If you are deaf, or have a hearing or speech impairment, contact us through the **National Relay Service** by calling **1800 555 660** and ask for **1300 550 994**. For more information, visit relayservice.gov.au.

14. Do you need assistance in another language?

Please refer to the translations below or call our Recall Contact Centre on **1300 550 994** who will be able to assist you with translation services.

DO YOU NEED FURTHER ASSISTANCE?

If Your vehicle contains a passenger-side front Takata airbag inflator that is subject to a **MANDATORY SAFETY RECALL** issued by the Australian Government following an investigation in which the ACCC concluded that certain Takata airbag inflators are **faulty** and could **kill or seriously injure** you and other people in your vehicle. As it gets older, a combination of high temperatures and humidity can affect the airbag. If you are involved in a collision, the airbag can go off with too much explosive force causing sharp metal fragments to shoot out and **kill or seriously injure people in the vehicle**. It is important that you **immediately contact** Subaru Australia via our dedicated Recall Centre on **1300 550 994**, or via our website at subaru.com.au/service-booking to arrange to have the airbag replaced. Alternatively, you can contact any authorised Subaru Service Centre directly to arrange to have the airbag replaced. For more information, or if you need the help of an interpreter, please contact us by ringing **1300 550 994** (Monday to Friday 8.00am to 8.00pm AEST or Saturday 8.30am to 5.00pm AEST. APAKAH ANDA MEMBUTUHKAN BANTUAN LEBIH LANJUT?

Pada kendaraan Anda terdapat pemompa kantong udara (*airbag inflator*) Takata di kursi penumpang depan yang terkena **PENARIKAN WAJIB DEMI KEAMANAN** yang dikeluarkan oleh Pemerintah Australia setelah penyelidikan oleh ACCC menyimpulkan bahwa pemompa kantong udara Takata ini **rusak** dan dapat **membunuh atau melukai serius** Anda dan orang lain dalam kendaraan Anda. Semakin tua usianya, kombinasi dari kelembapan dan suhu yang tinggi dapat mempengaruhi kantong udara ini. Jika Anda terlibat dalam tabrakan, kantong udara ini dapat meledak dengan daya ledak yang terlalu besar, menyebabkan pecahan logam tajam terlontar keluar dan dapat **membunuh atau melukai serius orang-orang di dalam kendaraan**. Penting bagi Anda untuk **segera menghubungi** Subaru Australia melalui Recall Centre kami pada nomor **1300 550 994**, atau melalui situs web kami subaru.com.au/service-booking untuk mengatur penggantian kantong udara ini. Atau Anda dapat langsung menghubungi Pusat Servis Subaru (Subaru Service Centre) resmi manapun untuk mengatur penggantian kantong udara. Untuk informasi lebih lanjut, atau jika Anda memerlukan bantuan penerjemah, silakan hubungi kami dengan menelepon **1300 550 994** (Senin - Jumat pukul 8.00 hingga 20.00 AEST atau Sabtu pukul 08.30 hingga 17.00 AEST. آیا شما به کمک اضافی ضرورت دارید؟

موتور شما دارای یک بادکننده ایربگ جلویی تاکاتا (Takata airbag inflator) در سمت مسافر است که مشروط به یک بازخوانی اجباری برای مصونیت (MANDATORY SAFETY RECALL) می باشد. این بازخوانی توسط دولت استرالیا پس از یک بررسی صادر شد که در آن ACCC نتیجه گیری کرد که بعضی از بادکننده های ایربگ تاکاتا معیوب هستند و می توانند شما و سایر افراد در موتور تان را بکشند یا به طور جدی آسیب برسانند. هر چه عمر ایربگ بیشتر می شود، ترکیبی از درجه حرارت بالا و رطوبت می تواند بر ایربگ تاثیر بگذارد. در صورتی که شما تصادم کنید، ایربگ می تواند با نیروی انفجاری فراوانی باز شود که باعث شود قطعات تیز فلزی پرتاب شود و اشخاص را در داخل موتور بکشد یا به طور جدی آسیب برساند. مهم است که بطور عاجل با سوپارو استرالیا از طریق مرکز بازخوانی اختصاص داده شده ما تلفون 1300 550 994 یا از طریق وب سایت ما در subaru.com.au/service-booking برای ترتیب دادن جایگزینی ایربگ تماس بگیرید. یا اینکه با نزدیک ترین نمایندگی مجاز سوپارو برای ترتیب دادن جایگزینی ایربگ تماس بگیرید. برای معلومات بیشتر، یا اگر به کمک یک ترجمان ضرورت دارید، لطفاً با تلفون 1300 550 994 (دوشنبه تا جمعه 8:00 صبح تا 8:00 بعد از ظهر به وقت استاندارد AEST یا شنبه 8:30 صبح تا 5 بعدازظهر به وقت استاندارد AEST به ما زنگ بزنید. تعطیلات عمومی بسته است. یا به feedback@subaru.com.au ایمیل بزنید یا به subaru.com.au/takata-recall مراجعه کنید.

برای بازکننده ایربگ مدل Takata که در سمت شاگرد خودروی شما نصب شده است یک فراخوان اجباری ایمنی توسط دولت استرالیا داده شده است. این فراخوان بعد از تحقیقاتی داده شده است که در طی آن ACCC به این نتیجه رسید که برخی از بازکننده های ایربگ مدل Takata دارای اشکال بوده و می توانند موجب مرگ یا جراحت دیدن شدید شما و سایر سرنشینان خودروی شما شوند. با گذشت زمان، مجموعه ای از دماها و رطوبت بالا می تواند بر ایربگ ها اثر بگذارد. اگر یک حادثه رانندگی برای شما پیش بیاید، امکان دارد ایربگ با قدرت انفجاری بیش از حدی باز شود که موجب پرتاب ذرات فلزی تیز به اطراف شده و این امر می تواند باعث جراحات شدید و یا مرگ سرنشینان خودرو شود. بسیار مهم است که فوراً از طریق تماس با مرکز ویژه فراخوان های Subaru استرالیا به شماره 1300 550 994، یا وب سایت subaru.com.au/service-booking برای تعویض ایربگ اقدام نمائید. یا اینکه می توانید مستقیماً با هر یک از مراکز خدمات

क्या आपको और अधिक सहायता की ज़रूरत है?

आपके वाहन में आगे वाली यात्री सीट की तरफ Takata एयरबैग लगा हुआ है जो ऑस्ट्रेलियाई सरकार द्वारा जारी एक जांच के बाद **अनिवार्य सुरक्षा वापसी** के अधीन है। इस जांच में ACCC ने निष्कर्ष निकाला था कि कुछ Takata एयरबैग इन्फ्लेटर दोषपूर्ण हैं और वे निर्माण के अपने छह साल पूरे करने के बाद आपको और वाहन में बैठे अन्य लोगों को **मार सकते हैं या गंभीर रूप से चोट पहुंचा सकते हैं।** जैसे-जैसे यह पुराना होता जाता है, उच्च तापमान और आर्द्रता का संयोजन एयरबैग को प्रभावित कर सकता है। यदि आपकी कोई टक्कर हो जाती है, तो एयरबैग बहुत अधिक विस्फोटक बल के साथ खुल सकता है जिससे धातु के नुकीले टुकड़े गोली की तरह बाहर निकल कर **वाहन में मौजूद लोगों को मार सकते हैं या उन्हें गंभीर रूप से चोट पहुंचा सकते हैं।** यह महत्वपूर्ण है कि आप Subaru Australia को हमारे समर्पित रिकॉल सेंटर के माध्यम से **1300 550 994** पर फ़ोन

Il vostro veicolo è dotato di un sistema di gonfiaggio per airbag della Takata sul lato passeggero del sedile anteriore il quale è soggetto a un **ORDINE DI RITIRO** imposto dal governo australiano in seguito a un'indagine dell'ACCC. A seguito di tale indagine l'ACCC ha stabilito che alcuni sistemi di gonfiaggio per airbag Takata sono **difettosi** e che passati sei anni dall'anno di produzione possono provocare la **morte o il ferimento grave** di voi stessi o di altre persone nel veicolo. È importante **contattare immediatamente** Subaru Australia tramite la nostra linea dedicata per i richiami al numero **1300 550 994**, o tramite il nostro sito web subaru.com.au/service-booking per organizzare la sostituzione dell'airbag. Altrimenti potete contattare direttamente uno dei centri autorizzati Subaru per organizzare la sostituzione dell'airbag.
